

LEAP Project Update

Happy New Year!

Hello and a Happy New Year to you! We hope this year is a fabulous year, and hope that it will be an even better year because of your involvement with the LEAP Project :). In this update we share about some of the visits with LEAP service partners at the end of last year, and we take a look at what is coming up for the LEAP Project in 2019. Here's to a productive year...

2018 in review: services we visited

There was a flurry of service visits across the Top End at the end of last year, with visits to service partners on Elcho Island and in Townsville, Charleville, Bamaga and Gunbalanya in Arnhem Land. The LEAP project team met many amazing people, we learnt so much and are all now working hard to draft the initial case study summaries for each of the service partners. Over 115 community members, health workers and managers have shared their stories about their health service with the LEAP project team so far. Thank you everyone who has contributed, and to the teams who hosted us so generously throughout 2018!

Let's meet in Darwin

The next face-to-face meeting for LEAP service partners and the LEAP project team will be held Tuesday 30th and Wednesday 31st July in Darwin, NT. We are currently finalising the venue and will be in touch in the next month or two to begin making arrangements for travel. If you have any queries about this meeting, please email us at leap@jcu.edu.au

Photo Spot

This Update, we are sharing a photo from Bidjara country taken by Karen Carlisle. The 'Wayanana Pathway' is on the north side of the Warrego River and is a part of the South West Queensland Indigenous Cultural Trail. In Bidjara language, Wayanana means "I'll be walking around somewhere else when he comes." If you have a photo you would like to share, just email us at leap@jcu.edu.au

More information

If you have questions or would like more information about anything you have read in this LEAP Project Update, please email leap@jcu.edu.au If you no longer wish to receive this Update please email leap@jcu.edu.au and your details will be removed from the distribution list.

The Leveraging Effective Ambulatory Practices (LEAP) Project is co-led by Dr Veronica Matthews and Professor Sarah Larkins and funded by the National Health and Medical Research Council of Australia ([1148660](#))
